Guidance on Training and Objectives of CLC's and SLC's

These activities are designed to be "off-campus" opportunities for cadets to apply knowledge gained, and reinforced, in the classroom within the MCJROTC unit. These camps are not opportunities to introduce new Program of Instruction (POI) lessons or provide "entertainment" for cadets. The focus is to be on practical application of the POI in previous leadership and character development classes and lessons.

Objectives of the Camps

On a rotational basis, cadets will serve in rank appropriate leadership positions and be faced with a variety of problem solving challenges in order to lead their unit to success in accomplishing the stated mission. All cadets should receive both objective and subjective evaluations/counseling of their performance in each leadership position they hold.

Cadets will be provided with multiple opportunities to practice and apply leadership skills, team building, and POI challenge-based training in a hands-on military structured environment.

Cadets will participate in citizenship development exercises designed to enhance the abilities of cadets to interact with cadets from other units, and from multiple backgrounds.

Provide cadets with an opportunity to participate in adventure-style training not normally available to during the academic year.

Training activities are normally categorized into mandatory, and optional activities, all of which will be directly related to the POI.

Training

Mandatory training activities will be tied directly to the core curriculum appropriate for the LE level (Ethics, Morals, Values; Leadership Traits; Authority, Accountability, and Responsibility; Roles of the Officer; Styles of Leadership, etc.)

Optional training activities may include, but are not limited to: Rappelling; Leaders' Reaction Course; Confidence/Obstacle Course; Team Building; Aquatic Activities (Drown Proofing) that develop confidence; and Science, Technology, Engineering, and Math Modules that further reinforce individual skills and mentoring/team-building. All optional training activities will be tied to the POI.
